Sir:

PETITION FOR ENTRY OF COLORED DRAWINGS

Applicant hereby petitions for the entry of colored drawings under 37 C.F.R. 1.84(a)(2). Contrast in color is an integral part of the invention disclosed and claimed in this application. The drawings in color enhance the understanding of how the molecules are arranged and indicate where they are charged (+ or-), for example.

Thus, color drawings greatly facilitate understanding the invention. The fee set forth in 37 C.F.R. § 1.17(h) of \$130.00 is enclosed with three sets of colored drawings, and one set of black and white photocopies of the colored drawings. Applicants have amended the specification to insert the requisite language under 37 C.F.R. 1.84(a)(2)(iv) in the Amendment filed concurrently herewith

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
